**Notes:**

The above scenarios tested at 0% AH on sites of 1-9 and 20%, 25%, 30%, 35%, 40% on-site AH on sites of 10+ units. The appraisals have been completed in each case to the point at which a negative results is returned - we consider there to be no merit in extending testing beyond the points where there is a negative residual land value. Affordable Housing tenure split assumed at 65% Affordable Rented and 35% Affordable Home Ownership - includes 25% First Homes. 10% Low Cost / Affordable Home Ownership (AHO) of total overall requirements. The above assumes fully applied policy position - actual percentage will necessarily vary due to policy requirement. 6% self/custom-build plots required on sites 50+ dwellings assuming plot values of £150,000 per plot (based on DSP research data). See Table Table 1c for Sheltered/Extra Care Typologies, Table 1d for Strategic Site Allocations and Table 1e for Build to Rent TBC.

Land Area Adjustment - 15% added (30% added on largest sites)
