

Winchester District Proposed Submission Local Plan (Regulation 19) Consultation

Policy SP1 – Representations on behalf of Crest Nicholson Partnerships and Strategic Land

October 2024

Introduction

1. These representations have been prepared on behalf of Crest Nicholson Partnerships and Strategic Land (herein, “Crest Nicholson”) in response to the Winchester City Council (herein, “the Council”) Proposed Submission Local Plan (herein, “the Plan”) Regulation 19 Consultation.
2. Crest Nicholson has an interest in all strategic and non-strategic matters informing the preparation of the Plan. However, these representations are made specifically in the context of Crest Nicholson’s interests in land falling within the North Whiteley Major Development Area (herein, “MDA”) (specifically, land parcels CU14, CU34 & CU45), which are identified under Policy SH2 of the Plan. Through these representations, Crest supports the allocation of the site for residential development.
3. These representations concentrate only on matters that are relevant to the allocating policy and matters that would associate with delivery of the site in due course pursuant to the terms of that policy.
4. These representations follow the structure of the Regulation 19 Consultation online survey, as relevant, with a particular focus on the Development Allocations (notably Policy SH2) and consider whether the policies are legally compliant, meet the tests of soundness and are compliant with the duty to co-operate. These representations also consider the evidence base which has informed the Regulation 19 Consultation including the Integrated Assessment documents which assess each of the proposed allocation sites.
5. Overall, these representations cover the following areas:
 - Strategic Policy SP1: Vision and Objectives
 - Strategic Policy SP2: Spatial Strategy and Development Principles
 - Strategic Policy CN1: Mitigating and Adapting to Climate Change
 - Policy CN3: Energy Efficiency Standards to Reduce Carbon Emissions
 - Strategic Policy D1: High Quality, Well Designed and Inclusive Places
 - Strategic Policy D3: Design Principles for the South Hampshire Urbans Areas
 - Strategic Policy T1: Sustainable and Active Transport and Travel
 - Policy NE5: Biodiversity

- Strategic Policy H5: Meeting Housing Needs
- Policy SH2: North Whiteley
- Integrated Impact Assessment (Sustainability Appraisal)

National Planning Policy Framework

6. The current version of the National Planning Policy Framework (herein “the Framework”) was published in December 2023. It should be noted that an updated version of the Framework was consulted on by the government between 30th July 2024 and 24th September 2024, with significant changes proposed to support the government’s ambitions to deliver 1.5 million homes over the next five years. Amendments are proposed to reverse the changes made to the Framework in December 2023, including making the standard method for housing needs a mandatory requirement¹.
7. The government also consulted on a new standard method for assessing housing need based on housing stock which would result in significant uplifts in housing needs for some areas, including in Winchester.
8. Whilst the new Framework and updated standard method may not be relevant for the purpose of examining the Council’s Local Plan if the Council submits the Plan before the new Framework comes into effect (plus one month)², they are a material consideration.

Strategic Policy SP1: Vision and Objectives

Do you consider the supporting text and policy are:

- Legally compliant – Yes
- Sound – Yes
- Complies with duty to co-operate – Yes

Comments

9. It appears that, with the exception of referring to ‘20 minute neighbourhoods’ instead of ‘15 minute neighbourhoods’, the proposed Vision and Objectives are mainly unchanged from the previous consultation on the Local Plan.
10. Crest Nicholson supports these objectives; particularly the following:
 - The recognition of the Partnership for South Hampshire (herein, “PfSH”) area lying within the district as being functionally and spatially closely linked to the conurbation and the strategic importance of North Whiteley in this context.
 - The continuing role that the main MDA growth areas will perform through the plan period in supporting the conurbation is welcomed.

¹ Proposed Paragraph 62

² Proposed Paragraph 226

- The approach set out within the vision to the planning of the Market Towns and Rural Areas (herein, “MTRA”) policy designation, notably that this area is constrained by its rural character, and that functionally it should be concerned predominantly with responding to locally arising housing needs where it is possible to do this in ways that protect the important rural setting of settlements, particularly where this is in close proximity to the South Downs National Park.
- The reference within the Vision to further growth at Whiteley. As discussed within our representations to Policy SH2, this will make a valuable contribution towards delivering sustainable development within Winchester.

11. Overall, the objectives outlined cover four general themes that collectively address the three objectives of sustainable development set out within the Framework³. It is demonstrated within our representations to Policy SH2 how the additional allocated growth at the North Whiteley MDA will contribute towards the delivery of these.

What modification(s) are necessary to make the policy legally compliant or sound?

12. No changes.

What is your suggested wording or text for the policy:

13. No changes.

If the Inspector invites you, do you consider it necessary to participate in the examination hearing sessions?

14. Yes, I want to take part in a hearing session if I am invited to by the Inspector to participate.

³ Paragraph 8
