| <p>Southdown is a sustainable settlement with a range of facilities and services within walking distance.</p> <p>The NPPF#70 acknowledges that smaller sites <i>“can make an important contribution to meeting the housing requirement of an area, and are often built up relatively quickly”</i>. Mindful of the ‘brownfield first’ approach championed by the Local Plan, small-scale development opportunities that are below the threshold size for allocation; which would provide infill and rounding off opportunities; that are physically, functionally and visually related to the existing urban areas; should be released through a review of the settlement boundary.</p> <p>This echoes the 2014 Settlement Boundary Review (which formed part of the evidence base for the current Adopted Local Plan Part 2) which added <i>“where there are any obvious and suitable candidates, boundaries could be adjusted to accommodate them and provide a degree of flexibility within the housing supply”</i>.</p> <p>Land at George Becketts Nursery extends to approximately 3.5ha and comprises land and buildings in horticultural use, a dwelling house, and associated land and buildings in retail use. The retail element fronting the highway is no longer required (“The site”). This area represents previously developed land (PDL).</p> <p>The site (edged in red on the accompanying plan) adjoins the settlement boundary of Southdown. It is located in a highly sustainable location being walkable to a range of local facilities and services (including primary school – 20 minute walk; and a convenience store – 10 minute walk; as well as close to public transport links (frequent bus route – 2 minute walk; and Shawford train station – 25 minute walk).</p> |

Settlement boundaries should have a degree of permanence to avoid constant change over time. The site is flanked on either side by residential development which visually and physically separates the site from undeveloped land to the south. There is also a mature belt of trees/hedgerow separating the site from the undeveloped land to the south. When travelling south along Otterbourne Road, after the site there is an abrupt end to the urban fabric and a clear transition to a more undeveloped landscape. The tree/hedgerow group creates a logical and defensible boundary and establishes a logical and semi-natural edge to the urban fabric. An alternative means of access to the nursery also reinforces this settlement edge and provides a permanent defensible boundary.

The 2014 Review advised that small scale development opportunities which would provide infill and rounding off opportunities that are physically, functionally and visually related to the existing urban area could be released through a review of the settlement boundary.. Further, it advises that curtilages that are contained, are visually part of the urban area and are separated from the open countryside will also be included. This site continues to meet these criteria and presents an opportunity to make *“efficient use of land and buildings”* and to *“prioritise the use of previously developed land/buildings in accessible locations”*.

**What modification(s) are necessary to make the policy legally compliant or sound?**

Amend settlement boundary.

**What is your suggested wording or text for the policy:**

Amend settlement boundary to include the site frontage at George Beckett Nurseries

**The Inspector will decide on who will appear at the hearing(s). You may be asked to take part when the Inspector has identified the matters and issues for examination. If the Inspector invites you, do you consider it necessary to participate in the examination hearing sessions?**

(Required)

Yes, I want to take part in a hearing session if I am invited to by the Inspector to participate

No, I don't want to take part in a hearing session
