Dear team

The Andover Rd closure represents an illogical decision . If closed through traffic and HGVs will pass through a residential area. Residents here do not expect to live on a major traffic route which will increase pollution in their homes from noise and downgraded air quality. Besides this is a detour and will mean greater fuel consumption for all users . This amounts to an action against all 'Green ' policies. The closure in a word is ridiculous!

Please make sure these comments are added to the list of objection to close the Andover Rd
